Work experience

Data analyst - Data science Jan 2023 - Present
Indicia worldwide UK

- Projects completed:
- Data quality and compliance projects (analysis, visualization, and reporting) for a new procurement tool.
 - Capacity planning: Led the development of a predictive time series model to forecast the future sales volume. Analyzed high and low demand peaks, seasonal trends, and patterns to optimize resource allocation within the company.
 - Automated processes across diverse data transformation projects to streamline the harmonization of company products.

Business Analytics Consultant
Minsait - Indra (Spain) May 2018 - Octubre 2022

- I defined business scopes through requirements gathering, set project budgets, and executed data transformation, analysis, and interpretation initiatives. Utilized ETL tools like PowerCenter, ODI, and OBIEE for data transformation and visualization
- Key projects in the financial sector included audits, inventories, eCommerce management reports (KPIs), GDPR compliance, and sustainability initiatives.
- Designed, planned, and executed an Analytics scorecard project.

Process Analyst Jan 2015 - July 2016
GLP Colombia

- Statistical analysis, process improvement, planning, training, execution and monitoring of projects within the organization.
